Health and Safety

Health and Safety - The Facts

- In the UK more than 25 million days are lost every year as a result of occupational accidents, injuries and ill-health
- Slips and trips are the biggest cause of major incidents accounting for 42% of major injuries to employees
- Stress related illness now accounts for 20% of reported cases of occupational ill-health and is increasing each year
- The maximum penalties for breaching health and safety legislation are unlimited fines and up to 2 years in prison

Don't become a statistic; ensure your business is protected today!

There is help available to ensure that your business complies with the principles of the Health and Safety at work act 1974 and all associated requirements.

This is by the adoption of an OHSAS 18001 management system and is a commitment by you to put proper safety control measures in place.

The benefits of adopting the standard include:

- Reduction in the number of incidents
- Fewer accidents
- Compliance with legal requirements
- Improvement in staff welfare

If you are interested in reducing the number of potential incidents and becoming certified to **OHSAS 18001** call one of our trained advisors on **0845 026 2063** or visit our website at **www.awisoconsultants.co.uk** for more information.
